LEADTEK

NetWork Care Phone NCP3680

Hardware Configuration
> Camera Unit: CMOS, 1.3Mega pixel
> RJ-45 LAN : 10 /100 Ethernet
> Built-in microphone
> Terminal Block : 1DO
> Embed Speaker Output 1W (85.4 db)
> DC Jack :DC5V power input
> Tack switches: System reset , Restore factory default

NETWORKING
Ethernet: 10/100BaseT Ethernet
Protocol: TCP/IP, DHCP, PPPoE, HTTP, SMTP, FTP, RTSP,
        RTP/RTCP, TFTP, SIP, DDNS
Network Bandwidth: 128k/256k/384k/512k/768k/1M/1.5M/2M

Video Setting and Performance
Compression: MPEG-4 SP
Frame Rate : 1 to 30
Quality : Adaptive

Adjustable Resolution (MPEG4):
Up to 15fps@720x480 (D1)
Up to 30fps@ 640x480 (VGA)
Up to 30fps @ 352x288 (CIF)
Up to 30fps @ 176 x 144(QCIF)

Adjustable Resolution (H.263):
Up to 30fps @ 352x288 (CIF)
Up to 30fps @ 176 x 144(QCIF)

Audio Setting
Codec : G.711 (a-law / mu-law)
Transmission : Two-way communication by SIP signaling,
        Half-duplex

EVENT CONTROL
Event Types : Motion detection, Scheduler, Manual Snapshot
        and Alarm-in
Motion Detection : Sensitivity control
Event Action : Send snapshots via FTP or Email in JPEG
        format (640x480)

SECURITY
User Management: Administrator and User group privileged
        protection
Authentication: ID and password protection
Site Demonstration: Guess account with privilege limitation

ENVIRONMENT
Operation Temperature : 0 ~ 50°C (tentative)
Operation Humidity : < 85%, non-condensing

Advance Feature
Windows based Soft-phone and recording software bundled

Minimum System Requirements for Surveillance Software
CPU : Intel Pentium IV 2GHz or above
System RAM : 512MB or above
OS : Microsoft Windows 2000 with Service Pack 6 , XP Home /
        Professional with SP 2
Sound Card : 8bit full duplex, Windows compatible
Browser : Microsoft Internet Explorer 6.0
Storage : 40GB free space of hard disk drive with 7200RPM
        capability
